If the taxes, penalties, and costs are not paid within the time specified in said notice, the controller shall, on said Saturday preceding the first Monday in March at six o'clock p.m. of said day, mark on the record of assessments for state taxes opposite the assessment of the delinquent corporation the words "corporate powers suspended," if the delinquent corporation be a domestic corporation, and thereupon said corporate powers shall be suspended and incapable of exercise until restored as hereinafter provided; and if the delinquent corporation be a foreign corporation, the controller shall mark on the record of assessments for state taxes opposite the assessment of such delinquent corporation the words "right to do intrastate business forfeited" and thereupon said right to do such business shall be so forfeited. He shall at once report to the secretary of state the name and number of charter of each corporation whose corporate powers have been suspended or right to do business has been forfeited for nonpayment of taxes.

On or before the first Monday in April of each year the controller shall make a list of all corporations subject to the tax imposed under sections 3664a, 3664b, 3664c, and 3664d of this code and which have failed to pay the same and transmit a certified copy thereof to each county clerk and county recorder in this state. Said county clerks and county recorders shall file such certified copies in their respective offices in such manner that the same shall be preserved in the form of a permanent record of such office and easily identified by and available to the public. Said copies so certified by the controller and filed as herein provided shall in the case of each corporation state whether such corporation is a domestic or foreign corporation and specify the penalty which each corporation has incurred for failure to pay the tax imposed by this act. Such certified copies so filed with either of said county officers, or any copy thereof certified by the controller shall be received in evidence in any court in lieu of the original record on file with the controller and shall be prima facie evidence of the truth of all statements contained therein.

2. After six o'clock p.m. of the Saturday preceding the first Monday in March in any year, the corporate rights, privileges and powers of every domestic corporation which has failed to pay said tax and money penalty shall, from and after said hour of said day, be suspended, and incapable of being exercised for any purpose or in any manner, except to defend any action brought in any court against such corporation, until said tax with all accrued penalties, and all taxes and charges due the state under the corporation license act are paid as hereinafter provided. The right and privilege of every foreign corporation to transact intrastate business in this state shall, for failure to pay said tax and money penalty, be forfeited at said hour of said day, and the controller shall make a record of such forfeiture. In the case of foreign corporations such forfeiture may be relieved and the corporation's privilege to transact intrastate business in this state restored in the manner hereinafter provided. After said hour of said day and until such taxes, penalties and charges are paid, every person who attempts or purports to exercise any of the rights, privileges or powers of any delinquent corporation, or, who transacts or attempts to transact any intrastate business in this state in behalf of any forfeited foreign corporation, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than two hundred fifty dollars and not exceeding one thousand dollars, or by imprisonment

in the county jail not less than fifty days or more than five hundred days, or by both such fine and imprisonment. The jurisdiction of such offense shall be held to be in any county in which any part of such attempted exercise of such powers, or any part of such transaction of business was had or occurred. Every contract made in violation of this section is hereby declared to be void.

3. All corporate powers, rights and privileges suspended or forfeited may be revived and restored to full force and effect by the payment of all accrued taxes and penalties due to the state under sections 3664a, 3664b, 3664c, and 3664d of this code and also, in addition thereto, a sum of money equal to the tax last assessed under the provisions of said sections of this code, for each year succeeding the year in which such tax was levied, and to the time of such revivor. "Year" within the meaning of the preceding sentence is hereby defined as the period between the first Monday in March of any calendar year and the first Monday in March of the following calendar year. In addition to the payment of the amounts above provided for, such reviving corporation shall pay to the secretary of state that proportion of the license tax specified in section 3 of any act known as the "corporation license act," as now in force or as hereafter amended, which the unexpired number of months of the calendar year in which such revivor or reinstatement occurs (including the month in which such revivor or reinstatement occurs) bears to the entire year. Upon payment of all such taxes and penalties the state controller shall issue a certificate under his seal evidencing such payment and restoration, which certificate when recorded in the office of any county recorder shall constitute a release of all existing liens for such taxes upon the property of such corporation. Each county recorder shall keep an index of all such controller's certificates recorded by him. Upon presentation of such controller's certificate of revivor to any county clerk said officer shall make a record thereof in his office in a book kept for such purpose. The record so made by said county clerk shall be prima facie evidence of the restoration to such corporation of all previously suspended or forfeited rights, powers and privileges unless it appears from the records in the office of such county clerk or of the secretary of state that subsequent to the date of such certificate of revivor the powers of said corporation have been suspended or its right to do intrastate business forfeited.

4. The controller may, on or before the thirtieth day of April next following said delinquency and suspension or forfeiture, bring an action in a court of competent jurisdiction in the county of Sacramento in the name of the people of the State of California, to collect any delinquent taxes, together with any penalties, or costs, which have not been paid in accordance with the provisions of this code and appearing delinquent upon the record of assessments for state taxes hereinbefore mentioned, and such actions shall be tried in the county of Sacramento unless the court, with the consent of the attorney general, order a change of place of trial.

The attorney general must prosecute such action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for. In such action a writ of attachment may be issued, and no bond or affidavit previous to the issuing of said attachment is required.

In the case of companies whose right to do business has been forfeited or corporate powers suspended, service of summons may be made upon the persons provided for by law to be served as agents or officers of any of such companies and such persons shall be deemed to be the agents of such companies for all purposes necessary in order to prosecute such action. In the case of corporations whose powers have been suspended, the persons constituting the board of directors thereof shall have the power and right to defend such action. Payment of the taxes and penalties, or amount of the judgment recovered in such action must be made to the state treasurer. In such actions the record of assessments for state taxes, or a copy of so much thereof as is applicable in said action, duly certified by the controller, or by the secretary of the state board of equalization, showing unpaid taxes against any company, person or association assessed by the state board of equalization, is prima facie evidence of the assessment upon the property and franchises, the delinquency, the amount of the taxes, penalties, and costs due and unpaid to the state, and that the company, person, or association is indebted to the people of the State of California in the amount of taxes and penalties therein appearing unpaid, and that all the forms of law in relation to the assessment and levy of such taxes have been complied with."

On page 7 of the printed bill, strike out all of lines 37 to 52, inclusive, and insert in lieu thereof the following:

"Sec. 18. Standard for citrus fruits. Citrus fruits shall be mature and free from decay; and free from serious damage, as defined in this section, caused by freezing, drying at the stem or blossom end (resulting from causes other than freezing), splits, bruises, and punctures, and in case of packed citrus fruits shall be virtually uniform in size. Damage by drying at the stem or blossom end resulting from causes other than freezing shall not be considered serious unless twenty per cent or more of the pulp shows a marked drying or desiccation. Damage from freezing to any one fruit shall not be considered serious unless it causes a drying or desiccation in twenty per cent or more of the exposed pulp as shown on a transverse cut through the center, or causes before the drying process develops a water soaked appearance, or evidence of previous water soaking, or the presence of crystals or crystalline deposit, on the two surface membranes of each of two or more segments, as shown on the separation of the segments one from another, of a section, not less than one inch or more than one and one-half inches in thickness, of the central portion of the fruit, obtained by cutting off a portion of

each end—the evidence of freezing injury to show for the entire length but not necessarily the entire area of the surface membranes.

The percentage of serious damage by freezing injury or other defects in any lot of citrus fruits, packed, loose, in containers, or in bulk, may be established by inspection of a representative sample which shall consist of not less than one hundred fruits. Damage caused by splits, bruises, or punctures in any citrus fruit shall not be considered serious if the injury is well healed and free from mold or decay.

With the exception of serious damage caused by freezing or drying at the stem or blossom end resulting from causes other than freezing, not more than ten per cent, by count, of the citrus fruit in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance, or five per cent, shall be allowed for any one cause. In the case of serious damage by freezing injury or by drying at the stem or blossom end resulting from causes other than freezing, not more than fifteen per cent, by count, of the citrus fruit in any one container or bulk lot may be below these requirements.

It is further provided that any packed, wrapped citrus fruit which has been in storage or shipped by rail and which fails to meet the requirements of this standard only by reason of brown rot, blue mold, or green mold which has occurred after packing, shall not be held for violation of the provisions of this act on account of such deterioration.

Oranges shall not be deemed mature under the provisions of this act unless the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of eight parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization, and have attained at least twenty-five per cent of characteristic color before picking; *provided, however*, that oranges which are at least seventy per cent colored at the time of picking shall be deemed mature if the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of six and one-half parts to every part of acid contained in the juice; *provided, further*, that no oranges may be accelerated in color unless the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of eight parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization.

"Twenty-five per cent of characteristic color" in the case of oranges is defined as that color designated by the Munsell color notation as hue four green-yellow, value four, chroma three, (4GY4/3), and "seventy per cent colored" as hue three yellow, value six, chroma five, (3Y6/5). Oranges shall be considered as having exceeded twenty-five or seventy per cent color if the average hue of the surface of each fruit is numerically less than four green-yellow or three yellow respectively, regardless of the other components of the color.

Grapefruit shall not be deemed mature under the provisions of this act unless the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of five and one-half parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization, and have attained at least twenty-five per cent of characteristic yellow color before picking; *provided, however*, that grapefruit which are at least seventy per cent colored at the time of picking shall be deemed mature if the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of five parts to every part of acid contained in the juice; *provided, further*, that no grapefruit may be accelerated in color unless the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of five and one-half parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization.

"Twenty-five per cent characteristic yellow color" in the case of grapefruit is defined as that color designated by the Munsell color notation as hue ten yellow, value five, chroma three, (10Y5/3), and "seventy per cent colored" as hue seven yellow, value seven, chroma six, (7Y7/6). Grapefruit shall be considered as having exceeded twenty-five or seventy per cent color if the average hue of the surface of each fruit is numerically less than ten yellow and seven yellow respectively, regardless of the other components of the color."

SENATE CONSTITUTIONAL AMENDMENT No. 3.

A resolution to propose to the people of the State of California an amendment to section 1 of article IV of the constitution of said State, relating to the submission of drafts of initiative and referendum measures to the Attorney General, and to the filing of initiative or referendum petition.

Resolved by the Senate, the Assembly concurring. That the Legislature of the State of California, at its forty-ninth regular session commencing on the fifth day of January, 1931, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section 1 of article IV of the constitution of said State be amended to read as follows:

Section 1. The legislative power of this State shall be vested in a Senate and Assembly which shall be designated "The Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the constitution, and to adopt or reject the same, at the polls independent of the Legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the Legislature. The enacting clause of every law shall be "The people of the State of California do enact as follows:"

The first power reserved to the people shall be known as the initiative. Upon the presentation to the Secretary of State of a petition certified as herein provided to have been signed by qualified electors, equal in number to eight per cent of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law or amendment to the constitution, set forth in full in said petition, the Secretary of State shall submit the said proposed law or amendment to the constitution to the electors at the next succeeding general election occurring subsequent to 90 days after the presentation aforesaid of said petition, or at any special election called by the Governor in his discretion prior to such general election. All such initiative petitions shall have printed across the top thereof in 12 point black-face type the following: "Initiative measure to be submitted directly to the electors."

Upon the presentation to the Secretary of State, at any time not less than ten days before the commencement of any regular session of the Legislature, of a petition certified as herein provided to have been signed by qualified electors of the State equal in number to five per cent of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law set forth in full in said petition, the Secretary of State shall transmit the same to the Legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the Legislature, within 40 days from the time it is received by the Legislature. If any law proposed by such petition shall be enacted by the Legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the Legislature, within said 40 days, the Secretary of State shall submit it to the people for approval or rejection at the next ensuing general election. The Legislature may reject any measure so proposed by initiative petition and propose a different one on the same subject by a yea and nay vote upon separate roll call, and in such event both measures shall be submitted by the Secretary of State to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the Governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in 12 point black-face type the following: "Initiative measure to be presented to the Legislature."

The second power reserved to the people shall be known as the referendum. No act passed by the Legislature shall go into effect until 90 days after the final

adjournment of the session of the Legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the State, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect, a statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be passed only upon a ye and nay vote, upon a separate roll call thereon; *provided, however*, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure. Any law so passed by the Legislature and declared to be an urgency measure shall go into immediate effect.

Upon the presentation to the Secretary of State within 90 days after the final adjournment of the Legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to five per cent of all the votes cast for all candidates for Governor at the last preceding general election at which a Governor was elected, asking that any act or section or part of any act of the Legislature be submitted to the electors for their approval or rejection, the Secretary of State shall submit to the electors for their approval or rejection, such act, or section or part of such act, at the next succeeding general election occurring at any time subsequent to 30 days after the filing of said petition or at any special election which may be called by the Governor, in his discretion, prior to such regular election, and no such act or section or part of such act shall go into effect until and unless approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any act the remainder of such act shall not be delayed from going into effect.

Any act, law or amendment to the constitution submitted to the people by either initiative or referendum petition and approved by a majority of the votes cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the Secretary of State. No act, law or amendment to the constitution, initiated or adopted by the people, shall be subject to the veto power of the Governor, and no act, law or amendment to the constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but acts and laws adopted by the people under the referendum provisions of this section may be amended by the Legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by those in favor of, and those opposed to, it shall be mailed to each elector in the same manner as now provided by law as to amendments to the constitution, proposed by the Legislature; and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the Senate.

If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amendment to the constitution, proposed by the Legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any be so proposed, as herein provided.

Prior to circulation of any initiative or referendum petition for signatures thereof, a draft of the said petition shall be submitted to the Attorney General with a written request that he prepare a title, and summary of the chief purpose and points of said proposed measure, said title and summary not to exceed 100 words in all. The persons presenting such request to the Attorney General shall be known as "proponents" of said proposed measure. The Attorney General shall preserve said written request until after the next general election.

Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the State shall be competent to solicit said signatures within the county or city and county of which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent to sign such section. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. The affidavit of any person soliciting

signatures hereunder shall be verified free of charge by any officer authorized to administer oaths. Such petitions so verified shall be prima facie evidence that the signatures thereon are genuine and that the persons signing the same are qualified electors. Unless and until it be otherwise proven upon official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified electors.

Each section of the petition shall be filed with the clerk or registrar of voters of the county or city and county in which it was circulated, but all said sections circulated in any county or city and county shall be filed at the same time. Within 20 days after the filing of such petition in his office the said clerk, or registrar of voters, shall determine from the records of registration what number of qualified electors have signed the same, and if necessary the board of supervisors shall allow said clerk or registrar additional assistance for the purpose of examining such petition and provide for their compensation. The said clerk or registrar, upon the completion of such examination, shall forthwith attach to said petition, except the signatures thereto appended, his certificate, properly dated, showing the result of said examination and shall forthwith transmit said petition, together with his said certificate, to the Secretary of State and also file a copy of said certificate in his office. Within 40 days from the transmission of the said petition and certificate by the clerk or registrar to the Secretary of State, a supplemental petition identical with the original as to the body of the petition but containing supplemental names, may be filed with the clerk or registrar of voters, as aforesaid.

The right to file the original petition shall be reserved to its proponents, as defined herein and any section thereof or supplement thereto presented for filing by any person or persons other than the proponents of a measure or by persons duly authorized in writing by such proponents shall be disregarded by the county clerk or registrar of voters.

The clerk or registrar of voters shall within 10 days after the filing of such supplemental petition make like examination thereof, as of the original petition, and upon the completion of such examination shall forthwith attach to said petition his certificate, properly dated, showing the result of said examination, and shall forthwith transmit a copy of said supplemental petition, except the signatures thereto appended, together with his certificate, to the Secretary of State.

When the Secretary of State shall have received from one or more county clerks or registrars of voters a petition certified as herein provided to have been signed by the requisite number of qualified electors, he shall forthwith transmit to the county clerk or registrar of voters of every county or city and county in the State his certificate showing such fact. A petition shall be deemed to be filed with the Secretary of State upon the date of the receipt by him of a certificate or certificates showing said petition to be signed by the requisite number of electors of the State. Any county clerk or registrar of voters shall, upon receipt of such copy, file the same for record in his office. The duties herein imposed upon the clerk or registrar of voters shall be performed by such registrar of voters in all cases where the office of registrar of voters exists.

The initiative and referendum powers of the people are hereby further reserved to the electors of each county, city and county, city and town of the State to be exercised under such procedure as may be provided by law. Until otherwise provided by law, the legislative body of any such county, city and county, city or town may provide for the manner of exercising the initiative and referendum powers herein reserved to such counties, cities and counties, cities and towns, but shall not require more than 15 per cent of the electors thereof to propose any initiative measure nor more than 10 per cent of the electors thereof to order the referendum. Nothing contained in this section shall be construed as affecting or limiting the present or future powers of cities or cities and counties having charters adopted under the provisions of section 8 of article XI of this constitution. In the submission to the electors of any measure under this section, all officers shall be guided by the general laws of this State, except as is herein otherwise provided. This section is self-executing, but legislation may be enacted to facilitate its operation, but in no way limiting or restricting either the provisions of this section or the powers herein reserved.

The registrar of contractors may upon his own motion, and shall upon the verified complaint in writing of any person, investigate the actions of any contractor within the state and shall have power to temporarily suspend or permanently revoke a license issued under the provisions of this act if the holder, while a licensee hereunder, is guilty of or commits any one or more of the following acts or omissions:

(1) Abandonment of any contract without legal excuse;

(2) Diversion of funds or property received for prosecution or completion of a specific contract, or for a specified purpose in the prosecution or completion of any contract, and their application or use for any other contract, obligation or purpose.

(3) Fraudulent departure from or disregard of, plans or specifications in any material respect, without consent of the owner or his duly authorized representative.

(4) Wilful and deliberate disregard and violation of the building code of the state, or of any political subdivision thereof, or of the safety laws or labor laws of the state.

(6) Misrepresentation of a material fact by applicant in obtaining a license.

(7) The doing of any wilful, fraudulent act by the licensee as a contractor in consequence of which another is substantially injured.

SEC. 8. A new section is hereby added to chapter 791, Statutes of 1929, to be numbered 9a, and to read as follows:

Sec. 9a. Upon the filing with the registrar of a verified complaint charging a licensee with the commission within two years prior to the date of filing of such complaint of any act which is cause for suspension or revocation of license, the registrar must forthwith issue a citation directing the licensee, within ten days after service of the citation upon him, to appear by filing with the registrar his verified answer to the complaint, showing cause, if any he has, why his license should not be suspended or revoked. Service of the citation upon the licensee shall be fully effected by mailing a true copy thereof, together with a true copy of the complaint, by United States registered mail in a sealed envelope with postage fully prepaid thereon addressed to the licensee at his latest address of record in the registrar's office. Service of said citation shall be complete at the time of said deposit subject to the provisions of section 1013 of the Code of Civil Procedure of this state. Failure of the licensee to answer shall be deemed an admission by him of the commission of the act or acts charged in the complaint and thereupon the registrar shall have power forthwith to suspend or revoke the license.

Upon the filing of the answer, the registrar shall fix a time and place for the hearing and give the licensee and the complainant not less than five days' notice thereof. The notice may be served by depositing in the United States mail a true copy of the notice enclosed in a sealed envelope with postage thereon fully prepaid and addressed to the licensee and to the complainant, respectively, at his last known address. With the notice to the complainant there shall be attached or enclosed a copy of the answer. If either party has appeared by counsel, the notice shall be given, in like manner, to counsel instead of to the party.

Upon the hearing, the registrar shall hear all relevant and competent evidence offered by the complainant and by the licensee, and shall have power to continue the hearing from time to time as in his judgment may be necessary or proper. After the hearing is concluded and the matter submitted, the registrar shall, within ten days after such submission, render his decision in writing, suspending or revoking the license or dismissing the complaint, with a brief statement of his reasons therefor. He shall give to the complainant and the licensee, or their respective attorney, notice of the decision, by mail, in the same manner as prescribed herein for the giving of

notice of hearing. A decision of the registrar suspending or revoking a license shall not take effect until twenty days after such service of notice of the decision.

Within twenty days after such service of notice of the decision of the registrar suspending or revoking a license, the licensee may apply for a rehearing by filing with the registrar his petition in writing therefor. Within five days after such filing, the registrar shall cause notice thereof to be served upon the complainant by mailing a copy of the petition for rehearing to the complainant in the same manner as herein prescribed for the giving of notice of hearing.

The filing of a petition for rehearing as to the registrar's action in suspending or revoking a license suspends the operation of such action and permits the licensee to continue to do business as a contractor pending denial or granting of the petition, and, if the petition be granted, pending decision of the registrar upon rehearing.

In his order granting or denying a rehearing, the registrar shall set forth a statement of the particular grounds and reasons for his action on the petition and shall forthwith mail a copy of the order to the parties who have appeared in support of or in opposition to the petition for rehearing. If a rehearing is granted, the registrar shall set the matter for further hearing on due notice to the parties, given in the same manner as prescribed herein for the giving of notice of an original hearing.

Within ten days after submission of the matter upon rehearing, the registrar shall render his decision in writing and give notice thereof in the same manner as of a decision rendered upon an original hearing.

Within thirty days after service of notice of the order denying the rehearing or of the decision rendered upon the rehearing, any party aggrieved by the order or decision of the registrar may appeal therefrom to the superior court of the State of California, in and for the county or city and county in which the person affected by such decision resides or has his place of business under the terms of this act, by serving upon the registrar a notice of such appeal and a demand in writing for a certified transcript of all the papers on file in his office affecting or relating to such decision and all the evidence taken on the hearing and paying therefor at the rate of ten cents for each folio of the transcript and one dollar for the certification thereof. Thereupon, the registrar shall, within thirty days, make and certify such transcript, and the appellant shall, within five days after receiving the same, file the same and the notice of appeal with the clerk of said court. Upon the hearing of such appeal, the court shall be limited to a consideration and determination of the question whether there has been an abuse of discretion on the part of the registrar in making such decision.

When an appeal is taken to said superior court from the order or decision of the registrar suspending or revoking a license, such order or decision shall remain in effect pending final determination of the matter, unless the appellant shall file with the court a bond in a sum to be fixed by the court or by the judge thereof in favor of the people of the State of California and conditioned upon the faithful performance of all the obligations of said appellant as a contractor, pending the final determination of the matter on appeal and until the fulfillment by the contractor of any condition imposed by such order or decision of the registrar. Such bond shall be for the benefit of any person having dealings with said appellant in his capacity as a contractor, and any person so dealing with said appellant in such capacity shall have the right to commence and maintain an action thereon in his own name against such contractor and his sureties on said bond.

If such superior court shall determine that a contractor's license should be suspended or revoked, it shall by its judgment suspend or revoke such license. The clerk of such superior court shall within ten days after the entry of any such judgment on appeal transmit to the registrar, by United States mail, a notice containing information as to the affirmance, modification or reversal of the order or decision of the registrar in said matter.

The suspension or cancellation of license as in this act provided may also be embraced in any action otherwise proper in any court involving the licensee's performance of his legal obligation as a contractor.

SEC. 9. Section 10 of chapter 791, Statutes of 1929, is hereby amended to read as follows:

SEC. 10. A judgment of suspension or cancellation of license by the superior court shall be subject to appeal or review in accordance with the provisions of law as to appeal from or review of judgments of superior courts, but there shall be no stay of execution or enforcement of such judgment pending such proceedings on appeal or review unless the appellant or applicant for review shall file a bond in all respects condition as, and similar to, the bond required by section 9a of this act.

The clerk of the court wherein said judgment has become final shall, within ten days after the entry of such final judgment, transmit, by United States mail, to the registrar, a notice containing information as to the affirmance, modification or reversal of the judgment of the superior court in said matter.

SEC. 10. A new section is hereby added to chapter 791, Statutes of 1929, to be numbered 10a, and to read as follows:

SEC. 10a. In any investigation, proceeding or hearing which under the provisions of this act he is empowered to institute, conduct or hold, the registrar, deputy registrars and examiners shall have the power to administer oaths, certify to official acts, issue subpoenas for the attendance of witnesses and the production of books, papers, and records, and exercise all of the powers conferred upon the head of a department

by the provisions of section 353 of the Political Code. All of the provisions of said section are incorporated herein with the same force and effect as if herein set forth at length and wherever in said section the term "head of a department" or similar designation occurs, the same, for the purpose of this reference, means the "registrar of contractors."

The commissioner shall have the further power and authority to adopt and from time to time amend rules of practice and procedure not inconsistent with law, provided that any rule may be reviewed by the judicial council of this state upon complaint or upon its own motion and said judicial council may suspend or annul any rule deemed by it to be substantially unjust.

provided, that if the superior court shall affirm the findings of fact of the commissioner the appeal from the judgment of the court shall not include questions of fact and sufficiency of evidence, but shall be limited to questions of law affecting the substantial rights of the parties.

All the provisions of the Code of Civil Procedure relating to the pleadings, proof, trials and appeals shall be applicable to such action.

An act to protect the natural resources of water, petroleum and gas from damage, waste and destruction; relating to the creation of a division in the department of natural resources for the prevention of such damage, waste and destruction; providing for the appointment of a state oil and gas supervisor; prescribing his duties and powers; fixing his compensation; prescribing for the appointment of deputies and employees; inspection of petroleum and gas wells; requiring all persons operating petroleum and gas wells to make certain reports; permitting and authorizing agreements in the interests of conservation; providing for suits by the director of the department of natural resources in the name of the people of the State of California; providing procedure for arbitration of departmental rulings; creating a fund for the purposes of the act; providing for assessment of charges to be paid by operators and providing for the collection thereof; providing for bonds required of drillers of oil and gas wells; and making an appropriation for the purposes of this act.

SEC. 2. Section 3 of said act is hereby amended to read as follows:

SEC. 3. It shall be the duty of the state oil and gas supervisor so to supervise the drilling, operation and maintenance and abandonment of petroleum or gas wells or wells for the discovery of petroleum or gas in the State of California, as to prevent, as far as possible, damage to underground petroleum and gas deposits from infiltrating water and other causes and loss of petroleum and natural gas and damage to underground and surface waters suitable for irrigation or domestic purposes from the infiltration therein, or the addition thereto, of substances detrimental thereto, by reason of such drilling, operation, maintenance or abandonment of such wells. It shall be the duty of any person, firm or corporation engaged in operating any petroleum or gas well in this state wherein high pressure gas is known to exist, and any person, firm or corporation drilling for petroleum or gas in any district in this state where the pressure of petroleum or gas is unknown, to equip any such well with casing of sufficient strength, and such other safety devices as may be necessary, in accordance with methods approved by the state oil and gas supervisor, and to use every effort and endeavor to effectually prevent blow-outs, explosions and fires.

SEC. 3. Section 6 of said act is hereby amended to read as follows:

SEC. 6. It shall be the duty of each deputy to collect all necessary information regarding the oil and gas wells in the district, with a view to determining the

presence and source of water in the oil sand and the location and extent of strata bearing water suitable for irrigation or domestic purposes that might be affected thereby, and to make all maps and other accessories necessary to determine the presence and source of water in the oil sands and the location and extent of strata bearing water suitable for irrigation or domestic purposes or surface water suitable for such purposes. This work shall be done with the view to advising the operators as to the best means of protecting the oil and gas sands and the said water-bearing strata and surface water, and with a view to aiding the supervisor in ordering tests or repair work at wells. All such data shall be kept on file in the office of the deputy oil and gas supervisor of the respective district.

SEC. 4. Section 8 of said act is hereby amended to read as follows:

Sec. 8. It shall be the duty of the supervisor to order such tests or remedial work as in his judgment are necessary to protect the petroleum and gas deposits from damage by underground water, or to prevent the escape of water into underground formations, or to prevent the infiltration of detrimental substances into underground or surface waters suitable for irrigation or domestic purposes, to the best interests of the neighboring property owners, and the public at large. The order shall be in written form, signed by the supervisor, and shall be served upon the owner of the well, or the local agent appointed by such owner, either personally or by mailing a copy of said order to the post-office address given at the time the local agent is designated, or if no such local agent has been designated, by mailing a copy of said order to the last known post-office address of said owner, or if the owner be unknown, by posting a copy of said order in a conspicuous place upon the property, and publishing the same in some newspaper of general circulation throughout the county in which said well is located, once a week for two consecutive weeks. Said order shall specify the conditions sought to be remedied and the work necessary to protect such deposits from damage from underground water.

Whenever the supervisor or any deputy makes or gives any written direction concerning the drilling, testing or other operations in any oil or gas well drilled, in process of drilling or being abandoned, and the operator, owner or representative of either, serves written notice, either personally or by mail, addressed to the supervisor or his deputy at his office in the district, requesting that a definite order be made upon such subject, the supervisor or his deputies shall, within five days after such notice, deliver a final written order on such subject matter in such manner and form that an appeal may be taken at once therefrom, to the board of oil and gas commissioners of the district created under this chapter.

SEC. 5. Section 15 of said act is hereby amended to read as follows:

Sec. 15. The owner or operator of any well now drilled or drilling, or that may hereafter be drilled or drilling, in the State of California on lands producing or reasonably presumed to contain petroleum or gas shall properly case such well or wells with water-tight and adequate metal casing and, in accordance with methods approved by the supervisor, or his deputy, and under his direction, shut off all water overlying and underlying oil-bearing or gas-bearing strata and prevent any water from penetrating such oil-bearing or gas-bearing strata. Such owner or operator shall likewise use every effort and endeavor to shut out from the strata containing water suitable for irrigation or domestic purposes and from surface water suitable for such purposes, substances detrimental thereto, and to prevent the infiltration of such substances into the strata containing water suitable for irrigation or domestic purposes and into such surface water.

Whenever it appears to the supervisors that any water from any such well is penetrating oil-bearing or gas-bearing strata or that any such detrimental substances are infiltrating into underground or surface water suitable for irrigation or domestic purposes from any such well, he may order a shut-off test and shall designate a day upon which test shall be held. Said order shall be in written form and served upon the owner or operator of said well at least ten days prior to the day designated in said order as the day upon which said test shall be held. Upon the receipt of such order it shall be the duty of the owner or operator to hold said test in the manner and at the time prescribed in said order.

SEC. 6. Section 16 of said act is hereby amended to read as follows:

Sec. 16. It shall be the duty of the owner or operator of any well referred to in this act, before abandoning same, in accordance with methods approved by the supervisor, or his deputy, and under his direction, to shut off and exclude all water from entering oil-bearing or gas-bearing strata encountered in the well and to use every effort and endeavor to protect any underground or surface water suitable for irrigation or domestic purposes from infiltration or addition of any detrimental substances. Before any work is commenced to abandon any well, the owner or operator shall give written notice to the supervisor, or his deputy, of his intention to abandon such well and the date upon which such work of abandonment shall begin. The notice shall be given to the supervisor, or his deputy, at least five days before such proposed abandonment and shall contain information showing the condition of the well and the proposed method of abandonment. The owner or operator shall furnish the supervisor, or his deputy, any additional information that he may request regarding the condition of the well and the proposed method of abandonment at any time between the filing of the notice of intention to abandon such well and the completion of abandonment. The supervisor, or his deputy, shall, before the proposed date of commencing work to abandon such well, furnish the owner or operator (1) with a

written report of approval of his proposal or (2) a written report stating what work or tests will be necessary before approval to abandon will be given, or (3) a written request stating what information will be necessary for the owner or operator to furnish the supervisor, or his deputy, before approval to commence work to abandon or before approval to abandon, will be given. If the supervisor, or his deputy, shall fail within the specified time to give the owner or operator a written report or request, such failure shall be considered as an approval of the owner's or operator's proposal to abandon such well, and such proposal shall, for the purposes and intents of this act, be deemed a written report of the supervisor or his deputy. Within five days after the completion of abandonment of any well referred to in this act, the owner or operator of the well abandoned shall make, in such form as the supervisor, or his deputy, may direct, a written report, in duplicate, of all work done in connection with the abandonment. The supervisor, or his deputy, shall, within ten days after the receipt of such written report of completion, furnish the owner or operator with a written final approval of abandonment or a written disapproval of abandonment setting forth the conditions upon which such disapproval is based. Failure to abandon in accordance with the approved method of abandonment; failure to notify the supervisor, or his deputy, to witness any and all tests provided to be witnessed by the supervisor, his deputy or his inspector, in such approved proposal; failure to furnish the supervisor, or his deputy, at his request, any information regarding the condition of the well, or any or either of such failures, shall be deemed sufficient grounds for disapproval of such abandonment.

SEC. 7. Section 18 of said act is hereby amended to read as follows:

Sec. 18. It shall be the duty of the owner and operator of any well referred to in this act to keep a careful and accurate log, core record and history, of the drilling of such well, such log to show the character and depth of the formation passed through or encountered in the drilling of such well, and particularly to show the location and depth of the water-bearing strata, together with the character of the water encountered from time to time (so far as ascertained) and to show at what point such water was shut off, if at all, and if not, to so state in such log, and show completely the amounts, kinds and size of casing used, and show the depth at which oil-bearing strata are encountered, the depth and character of same, and whether all water overlying and underlying such oil-bearing strata was successfully and permanently shut off so as to prevent the percolation or penetration of such water into such oil-bearing strata and whether strata bearing water that might be suitable for irrigation or domestic purposes are properly protected from the infiltration or addition of detrimental substances from such well; such core record to show depth, character, and fluid content of cores obtained, so far as determined; such history to show location and amount of sidetrack casings, tools or other material, depth and quantity of cement in cement plugs, shots of dynamite or other explosives, results of production, and other tests during drilling operations; such log shall be kept in the local office of the owner or operator, and, together with the tour reports of said owner or operator, shall be subject, during business hours, to the inspection of the supervisor, or any of his deputies, or any of the commissioners of the district, except in the case of a prospect well as hereafter defined. Upon the completion of any well or upon the suspension of operations upon any well, for a period of six months, if it be a prospect well, or for thirty days, if it be in proven territory, a copy of said log, core record and history, in duplicate, and in such form as the supervisor may direct, shall be filed within ten days after such completion, or after the expiration of said thirty-day period, with the field supervisor, and a like copy shall be filed upon the completion of any additional work in the deepening of any such well. The owner or operator of any well referred to in this act, or his local agent, shall file with the supervisor a copy of such log, history, and core record, or any portion thereof, at any time after the commencement of the work of drilling any such well, except a prospect well, upon written request of the supervisor, or his deputy. Such request shall be signed by the supervisor, or his deputy, and served either personally upon, or by mailing a copy of said request, by registered mail, to the last known post-office address of, such owner or operator or agent.

A well shall be deemed completed, for the purposes of this act, thirty days after the well has commenced to produce oil, water, or gas, unless drilling operations are resumed before the end of the thirty-day period.

The state oil and gas supervisor shall determine and designate what wells are prospect wells within the meaning of this act, and no reports shall be required from such prospect wells until six months after the completion thereof.

The owner or operator of any well drilled previous to the enactment of this act shall furnish to the supervisor, or his deputy, a complete and correct log, in duplicate, and in such form as the supervisor may direct, or his deputy, of such well, so far as may be possible, together with a statement of the present condition of said well.

The following resolution was offered:

By Senator Inman:

SENATE RESOLUTION.

WHEREAS, The Workmen's Compensation, Insurance, and Safety Act represents a very forward stride in the relations between employer and employee and is an attempt to place upon the various industries the reasonable cost to society of the human injuries suffered in carrying on those industries, and,

WHEREAS, In the case of many industries, the cost of maintaining this system has been increasing by leaps and bounds until it has assumed proportions which make it an unbearable burden upon the affected industries, and,

WHEREAS, The possibility of continuing the system must necessarily be dependent upon its cost remaining at a level which does not unduly burden the various industries, and,

WHEREAS, The facts with respect to the ever-recurring increases in premium rates are essential to a proper consideration and solution of the problem; now, therefore, be it

Resolved, By the Senate, that a special committee of five members of the Senate be appointed by the President thereof to investigate generally into the present system of rates, charges, classifications, coverage and policy forms of insurance covering the industries of this State, to take such action in relation to such investigation as it may deem necessary, and to report the proceedings, facts found and conclusions formed in such investigation, together with such recommendations as the committee deems proper to the Senate at the fiftieth session of the Legislature; and be it further

Resolved, That said committee shall proceed to organize by the election of one of its members as chairman and by the election of a secretary, and shall proceed with said investigation in such manner as may be determined by the committee; and be it further

Resolved, That each department, board, commission and officer of the State of California, whenever requested to do so by the committee, shall furnish the said committee such assistance as it may require; and be it further

Resolved. That said committee is hereby authorized and empowered to do any and all things necessary to make a full and complete investigation of the matters and subjects hereinbefore recited, and of the matters and subjects which it may deem necessary to investigate with relation to the matters and subjects herein enumerated or recited and to that end to employ all necessary assistants; and be it further

Resolved. That said committee is hereby authorized and empowered to summon witnesses, require the production of persons, books, accounts, agreements, minutes of meetings, documents, records, and papers of every kind whatsoever which it may deem necessary to so investigate, to issue subpoenas to compel the attendance of witnesses and to procure testimony. Each of the members of said committee is hereby authorized to administer oaths, and all the provisions of article VIII of chapter 2, title I, part III of the Political Code of the State, relative to the attendance and assemblage of witnesses before the Legislature and committees thereof, shall apply to the committee appointed under this resolution. MOTION.

Senator Slater moved, seconded by Senator McKinley, that when the Senate adjourns this day, it do so out of respect to the memory of the late Judge John W. Ballard, former State Senator from Los Angeles County.

Motion unanimously carried by a rising vote of the Senate.

REMARKS OF SENATOR SLATER.

Senator Slater addressed the Senate as follows:

Mr. President and Gentlemen of the Senate.

The older members of the Senate will certainly regret to learn of the passing of a former colleague, Senator John W. Ballard of Los Angeles, who was a member of the State Senate for two terms.

Many of us remember with much pleasure our association with Judge Ballard while he was a member of this body. We highly appreciated him.

Judge Ballard was a gentleman of the old school, a man of scholarly attainments; forceful in debate and unswerving in his loyalty to purpose.

Judge Ballard's long and useful life ended at his home this week and he left behind him a pathway strewn with shining remembrances and bright inscriptions. He was the first district attorney and the second superior judge in Orange County. He came to this State in 1843 and for many years practiced his profession as a lawyer in Los Angeles.

As a token of our esteem and as a tribute to his long and distinguished career, I desire to move that when the Senate adjourns today, it do so out of respect to our former colleague.

REMARKS BY SENATOR SHARKEY.

Senator Sharkey addressed the Senate as follows:

Mr. President and Gentlemen of the Senate.

I desire to say a few words at this time because of my very sincere appreciation of Judge Ballard, and his service as a member of this Senate.

When I first became a member of this House I was thrown in very close contact with Judge Ballard, and I have a very high regard for his splendid capabilities, and for his many manly qualities.

CONSIDERATION OF ASSEMBLY AMENDMENTS.

The Senate took up for consideration Assembly amendments to Senate Bill No. 181—An act to amend sections 52 and 67 of the California Irrigation District Act, relating to the redemption or purchase of bonds and payment of interest, and to the creation of funds.

ASSEMBLY AMENDMENTS TO SENATE BILL NUMBER
ONE HUNDRED EIGHTY-ONE.

AMENDMENT NUMBER ONE.

On page 1, line 4, of the title of the printed bill, as amended in Senate March 6, 1931, strike out the period and insert in lieu thereof the following: "and declaring the urgency thereof."

AMENDMENT NUMBER TWO.

On page 2 of the printed bill, as amended in Senate March 6, 1931, after line 9, insert the following:

"Sec. 3. This act is hereby declared to be an urgency measure, deemed necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of article IV of the constitution of the State of California, and as such it shall take effect immediately.

The following is a statement of the facts constituting such urgency:

Under the continuance of the conditions brought on by the agricultural depression many irrigation districts in this state have experienced an increased delinquency in the payment of assessments, which has brought about the necessity for an eventual refunding of their bonded obligations. Under the law as it at present exists a bond fund of an irrigation district may be exhausted by the presentation of maturing bonds, whereas the fund was created by the assessment for paying both principal and interest. This situation has brought about a condition in some of these districts where the land owner, unable to meet the full obligation of principal and interest and seeing himself on a complete default with danger of losing his home and lands, refuses to pay any of the assessment levied upon his land. This brings about a condition of breakdown in the functioning of the district, with the failure to supply water for domestic, irrigation and other purposes, detrimental in the extreme to the peace, health and safety of the communities involved. It is believed that through the passage of this bill before the semiannual period for payment of interest, on July 1st, districts will be enabled to continue their efforts toward refinancing without a breakdown of their functions as irrigation districts."

Bill read third time.

URGENCY CLAUSE.

SEC. 6. This act is hereby declared to be an urgency measure within the meaning of section 1 of article IV of the constitution of the State of California and it is deemed necessary for the immediate preservation of the public peace, health and safety that this law shall go into immediate effect. The following is a statement of the facts constituting such urgency:

Many irrigation districts organized under the laws of this State have issued bonds for the purpose of acquiring works for the distribution of water to the lands within such districts for irrigation and domestic use which bonds mature in whole or in part on July 1, 1931. If this amendment does not go into effect until 90 days after the final adjournment of this session of the Legislature, such districts will be unable to take advantage of the provisions hereof prior to July 1, 1931. Unless such bonds and interest coupons are refunded pursuant to the provisions of this amendment such districts must advance large cash payments for maturing bonds and interest coupons on that date, thereby leaving them without sufficient funds to enable them to operate properly and efficiently their distribution works. The proper and efficient operation of such works is necessary for the purpose of

furnishing water for irrigation and domestic use to the landowners within such districts and also to certain municipalities which are dependent entirely upon such districts for their source of water supply. The failure of the water supply of any such district or the inability of such district to make proper distribution thereof would be a menace to the public health of the inhabitants of such districts and of the municipalities aforesaid. If, however, the provisions of this amendment become a law immediately, such districts will be able to refund their bonds and coupons on or before July 1, 1931, thereby enabling such districts to utilize all available funds for the proper operation of their works for supplying and distributing water.

URGENCY CLAUSE.

SEC. 2. Urgency measure. This act is hereby declared to be an urgency measure, deemed necessary for the immediate preservation of the public peace and safety, within the meaning of section 1 of article IV of the constitution of the State of California, and as such it shall take effect immediately.

The following is a statement of the facts constituting such necessity:

On February 14th of this year, the state Supreme Court handed down a decision in the case of Swenson et al. vs. Engelke et al., the effect of which is to nullify that portion of section 634 of the Penal Code which is designed to give protection to salmon in the ocean fish and game districts on the coast of California during certain closed seasons. The present law intended to provide a closed season of eight and one-half months during which time it would be unlawful to take or possess salmon in the ocean districts of the state. The greatest destruction to small and immature salmon is caused by fishing during this closed time and it was for the purpose of preventing this great destruction that the closed seasons were imposed.

The decision was made strictly on an interpretation of the statute, it being the judgment of the court that the present statute does not prohibit the possession of salmon in these closed districts which have been caught on the high seas beyond the jurisdiction of the state. It is impossible to enforce the closed term in these districts unless the possession of salmon is at the same time prohibited. Therefore, as a result of this decision, there is no closed season in these districts and great destruction to salmon, which are desperately in need of this protection, will result.

There is one exception to this statement, however, in the case of Monterey Bay, which is one of the most important salmon trolling regions. The bay of Monterey and three miles beyond are within the jurisdiction of the state and as practically all the commercial salmon trolling is here carried on within this area, the present closed seasons can be fairly well enforced, a condition which does not exist in the other trolling areas of the state, where much of the trolling is carried on on the high seas outside the three mile limit and where the laws can not be enforced to any great extent within the three mile limit, thus bringing about a condition which discriminates against the Monterey and Santa Cruz fishermen and places them at a great disadvantage.

It so happens that the present open season of three and one-half months for the Monterey Bay area is not the right season in that it opens too late to enable the fishermen to catch the fish which are mature, and for that reason their fishing

is in a large part unprofitable and covers a time during which the destruction to small salmon is excessive.

The Monterey fishermen have just passed through a disastrous sardine season and many of them are so greatly in need of profitable employment that a serious emergency exists. The present urgency measure is designed to fix the open season for the Monterey Bay region at the proper time and for this present year to open it on March 15th to relieve the distress now existing among these fishermen.

The bill, if passed as an emergency measure, also will prevent the excessive destruction of immature salmon both at Monterey and in the districts to the north and will enable the officers of the state to enforce the laws without the dissatisfaction and probable resistance on the part of the fishermen. There are over one thousand commercial fishermen affected.

SEC. 3. This act is hereby declared to be an urgency measure within the meaning of section 1 of article IV of the constitution of the State of California, and it is deemed necessary for the immediate preservation of the public peace, health, and safety, that this law shall go into immediate effect. The following is a statement of facts constituting such urgency: The Sunkist Trail now designated as the Pacific Coast Link of United States No. 60 Transcontinental Highway running from the Atlantic coast to the Pacific coast is one of the main highway entrances into California, but has been in a long neglected and dangerous state due to lack of funds. The federal government offers to release the sum of \$800,000 of federal aid road moneys to make such highway safe and satisfactory only upon the condition that said bridge now a privately owned toll bridge, be made a publicly owned free bridge forthwith; that the state of Arizona has already enacted into law an urgency measure in similar terms and this act is essential to immediately consummate the transaction; that the release of the federal aid road improvement funds will furnish work for a large number of persons thereby relieving the prevailing unemployment situation and further promoting public peace, health, and safety.

SENATE CONSTITUTIONAL AMENDMENT No. 8.

A resolution to propose to the people of the State of California to amend the constitution of said State by amending section 7½ of article XI, relating to charters of counties and the election of officers thereunder.

Resolved by the Senate, the Assembly concurring. That the Legislature of the State of California at its regular session commencing on the fifth day of January, 1931, two-thirds of the members elected to each of the two houses of the said Legislature voting therefor, hereby proposes to the people of the State of California, that section 7½ of article XI of the constitution of said State be amended to read as follows:

Sec. 7½. Any county may frame a charter for its own government consistent with and subject to the constitution (or, having framed such a charter, may frame a new one,) and relating to matters authorized by provisions of the constitution, by causing a board of fifteen freeholders, who have been for at least five years qualified electors thereof, to be elected by the qualified electors of said county, at a general or special election. Said board of freeholders may be so elected in pursuance of an

ordinance adopted by the vote of three-fifths of all the members of the board of supervisors of such county, declaring that the public interest requires the election of such board for the purpose of preparing and proposing a charter for said county, or in pursuance of a petition of qualified electors of said county as hereinafter provided. Such petition, signed by fifteen per centum of the qualified electors of said county, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, praying for the election of a board of fifteen freeholders to prepare and propose a charter for said county, may be filed in the office of the county clerk. It shall be the duty of said county clerk, within twenty days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of electors of the county, whether said petition is signed by the requisite number of qualified electors. If required by said clerk, the board of supervisors shall authorize him to employ persons specially to assist him in the work of examining such petition, and shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the result thereof, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors: *provided*, that if a general election shall occur in said county not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid, or such presentation of said petition to said board of supervisors, said board of freeholders may be elected at such general election. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county offices, to be voted for at general elections. It shall be the duty of said board of freeholders, within one hundred twenty days after the result of such election shall have been declared by said board of supervisors, to prepare and propose a charter for said county, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the county clerk of said county and the other in the office of the county recorder thereof. Said board of supervisors shall thereupon cause said proposed charter to be published for at least ten times in a daily newspaper of general circulation, printed, published and circulated in said county: *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published for at least three times in at least one weekly newspaper, of general circulation, printed, published and circulated in such county: *and provided*, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county, and the first publication or the posting of such proposed charter shall be made within fifteen days after the filing of a copy thereof, as aforesaid, in the office of the county clerk. Said proposed charter shall be submitted by said board of supervisors to the qualified electors of said county at a special election held not less than thirty days nor more than sixty days after the completion of such publication, or after such posting: *provided*, that if a general election shall occur in said county not less than thirty days nor more than sixty days after the completion of such publication, or after such posting, then such proposed charter may be so submitted at such general election. If a majority of said qualified electors, voting thereon at such general or special election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or it may be submitted to the Legislature in extraordinary session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such county and shall become the organic law thereof relative to the matters therein provided, and supersede any existing charter framed under the provisions of this section, and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to the matters provided in such charter. A copy of such charter, certified and authenticated by the chairman and clerk of the board of supervisors under the seal of said board and attested by the county clerk of said county, setting forth the submission of such charter to the electors of said county, and its ratification by them, shall, after the approval of such charter by the Legislature, be made in duplicate, and filed, one in the office of the Secretary of State and the other, after being recorded

in the office of the recorder of said county, shall be filed in the office of the county clerk thereof, and thereafter all courts shall take judicial notice of said charter.

The charter, so ratified, may be amended by proposals therefor submitted by the board of supervisors of the county to the qualified electors thereof at a general or special election held not less than thirty days nor more than sixty days after the publication of such proposals for ten times in a daily newspaper of general circulation, printed, published and circulated in said county; *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published for at least three times in at least one weekly newspaper, of general circulation, printed, published and circulated in such county; *provided*, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county. If a majority of such qualified electors voting thereon, at such general or special election, shall vote in favor of any such proposed amendment or amendments, or any amendment or amendments proposed by petition as hereinafter provided, such amendment or amendments shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or may be submitted to the Legislature in extraordinary session, for approval or rejection as a whole, without power of alteration or amendment, and if approved by the Legislature as herein provided for the approval of the charter, such charter shall be amended accordingly. A copy of such amendment or amendments shall, after the approval thereof by the Legislature, be made in duplicate, and shall be authenticated, certified, recorded and filed as herein provided for the charter, and with like force and effect. Whenever a petition signed by ten per centum of the qualified electors of any county, computed upon the total number of votes cast in said county for all candidates for Governor at the last general election, at which a Governor was elected, is filed in the office of the county clerk of said county, petitioning the board of supervisors thereof to submit any proposed amendment or amendments to the charter of such county, which amendment or amendments shall be set forth in full in such petition, to the qualified electors thereof, such petition shall forthwith be examined and certified by the county clerk, and if signed by the requisite number of qualified electors of such county, shall be presented to the said board of supervisors, by the said county clerk, as hereinbefore provided for petitions for the election of boards of freeholders. Upon the presentation of said petition to said board of supervisors, said board must submit the amendment or amendments set forth therein to the qualified electors of said county at a general or special election held not less than thirty days nor more than sixty days after the publication or posting of such proposed amendment or amendments in the same manner as hereinbefore provided in the case of the submission of any proposed amendment or amendments to such charter, proposed and submitted by the board of supervisors. In submitting any such charter, or amendments thereto, any alternative article or proposition may be presented for the choice of the electors, and may be voted on separately without prejudice to others.

Every special election held under the provisions of this section, for the election of boards of freeholders or for the submission of proposed charters, or any amendment or amendments thereto, shall be called by the board of supervisors, by ordinance, which shall specify the purpose and time of such election and shall establish the election precincts and designate the polling places therein, and the names of the election officers for each such precinct. Such ordinance, prior to such election, shall be published five times in a daily newspaper, or twice in a weekly newspaper, if there be no such daily newspaper, printed, published and circulated in said county; *provided*, that if no such daily or weekly newspaper be printed or published in such county, then a copy of such ordinance shall be posted by the county clerk in three public places in such county and in or near the entrance to at least one public schoolhouse in each school district therein. In all other respects, every such election shall be held and conducted, the returns thereof canvassed and the result thereof declared by the board of supervisors in the same manner as provided by law for general elections. Whenever boards of freeholders shall be elected, or any such proposed charter, or amendment or amendments thereto, submitted, at a general election, the general laws applicable to the election of county officers and the submission of propositions to the vote of electors, shall be followed in so far as the same may be applicable thereto.

It shall be competent, in all charters framed under the authority given by this section to provide, in addition to any other provisions allowable by this constitution, and the same shall provide, for the following matters:

1. For boards of supervisors and for the constitution, regulation and government thereof, for the times at which and the terms for which the members of said board shall be elected, for the number of members, not less than three, that shall constitute such boards, for their compensation and for their election, either by the electors of the counties at large or by districts; *provided*, that in any event said board shall consist of one member for each district, who must be a qualified elector thereof; and

2. For sheriffs, county clerks, treasurers, recorders, license collectors, tax collectors, public administrators, coroners, surveyors, district attorneys, auditors, assessors and superintendents of schools, for the election or appointment of said officers, or any of them, for the times at which and the terms for which, said officers shall be elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors, and, if appointed, for the manner of their appointment; and

3. For the number of justices of the peace and constables for each township, or for the number of such judges and other officers of such inferior courts as may be provided by the constitution or general law, for the election or appointment of said officers, for the times at which and the terms for which said officers shall be elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors, and if appointed, for the manner of their appointment; and

4. For the powers and duties of boards of supervisors and all other county officers, for their removal and for the consolidation and segregation of county offices, and for the manner of filling all vacancies occurring therein; *provided*, that the provisions of such charters relating to the powers and duties of boards of supervisors and all other county officers shall be subject to and controlled by general laws; and

4½. For the assumption and discharge by county officers of certain of the municipal functions of the cities and towns within the county, whenever, in the case of cities and towns incorporated under general laws, the discharge by county officers of such municipal functions is authorized by general law, or whenever, in the case of cities and towns organized under section 8 of this article, the discharge by county officers of such municipal functions is authorized by provisions of the charters, or by amendments thereto, of such cities or towns.

5. For the fixing and regulation by boards of supervisors, by ordinance, of the appointment and number of assistants, deputies, clerks, attaches and other persons to be employed, from time to time, in the several offices of the county, and for the prescribing and regulating by such boards of the powers, duties, qualifications and compensation of such persons, the times at which, and terms for which they shall be appointed, and the manner of their appointment and removal; and

6. For the compensation of such fish and game wardens, probation and other officers as may be provided by general law, or for the fixing of such compensation by boards of supervisors.

All elective officers of counties and of townships, of road districts and of highway construction divisions therein shall be nominated and elected in the manner provided by general laws for the nomination and election of such officers; *provided, however*, it shall be competent in such charters to provide any other mode for their nomination and/or election, and to adopt and provide for any system of proportional representation on the legislative or governing body of counties, also the manner of voting under such system.

All charters framed under the authority given by this section, in addition to the matters herein above specified, may provide as follows:

For offices other than those required by the constitution and laws of the State, or for the creation of any or all of such offices by boards of supervisors, for the election or appointment of persons to fill such offices, for the manner of such appointment, for the times at which and the terms for which such persons shall be so elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors.

For offices hereafter created by this constitution or by general law, for the election or appointment of persons to fill such offices, for the manner of such appointment, for the times at which and the terms for which such persons shall be so elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors.

For the formation, in such counties, of road districts for the care, maintenance, repair, inspection and supervision only of roads, highways and bridges; and for the formation, in such counties, of highway construction divisions for the construction only of roads, highways and bridges; for the inclusion in any such district or division, of the whole or any part of any incorporated city or town, upon ordinance passed by such incorporated city or town authorizing the same, and upon the assent to such inclusion by a majority of the qualified electors of such incorporated city or town, or portion thereof, proposed to be so included, at an election held for that purpose; for the organization, government, powers and jurisdiction of such districts and divisions, and for raising revenue therein, for such purposes, by taxation, upon the assent of a majority of the qualified electors of such districts or divisions, voting at an election to be held for that purpose; for the incurring of indebtedness therefor by such counties, districts or divisions for such purposes respectively, by the issuance and sale, by the counties, of bonds of such counties, districts or divisions, and the expenditure of the proceeds of the sale of such bonds, and for levying and collecting taxes against the property of the counties, districts or divisions, as the case may be, for the payment of the principal and interest of such indebtedness at maturity; *provided*, that any such indebtedness shall not be incurred without the assent of

two-thirds of the qualified electors of the county, district or division, as the case may be, voting at an election to be held for that purpose, nor unless before or at the time of incurring such indebtedness provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also for a sinking fund for the payment of the principal thereof on or before maturity, which shall not exceed forty years from the time of contracting the same, and the procedure for voting, issuing and selling such bonds shall, except in so far as the same shall be prescribed in such charters, conform to general laws for the authorizing and incurring by counties of bonded indebtedness, so far as applicable; *provided, further*, that provisions in such charters for the construction, care, maintenance, repair, inspection and supervision of roads, highways and bridges for which aid from the State is granted shall be subject to such regulations and conditions as may be imposed by the Legislature.

Whenever any county has framed and adopted a charter, and the same shall have been approved by the Legislature, as herein provided, the general laws adopted by the Legislature in pursuance of sections 4 and 5 of this article, shall, as to such county, be superseded by said charter as to matters for which, under this section it is competent to make provision in such charter, and for which provision is made therein, except as herein otherwise expressly provided; and except that any such charter shall not affect the tenure of office of the elective officers of the county, or of any district, township or division thereof, in office at the time such charter goes into effect, and such officers shall continue to hold their respective offices until the expiration of the term for which they shall have been elected, unless sooner removed in the manner provided by law.

The charter of any county, adopted under the authority of this section, may be surrendered and annulled with the assent of two-thirds of the qualified electors of such county, voting at a special election, held for that purpose, and to be ordered and called by the board of supervisors of the county upon receiving a written petition, signed and certified as hereinabove provided for the purposes of the adoption of charters, requesting said board to submit the question of the surrender and annulment of such charter to the qualified electors of such county, and, in the event of the surrender and annulment of any such charter, such county shall thereafter be governed under general laws in force for the government of counties.

The provisions of this section shall not be applicable to any county that is consolidated with any city.

Resolved by the Senate, the Assembly concurring. That the Legislature of the State of California at its regular session commencing on the fifth day of January, 1931, two-thirds of the members elected to each of the two houses of the said Legislature voting therefor, hereby proposes to the people of the State of California, that the constitution of said State be amended by amending section 8½ of article XI thereof to read as follows:

Sec. 8½. It shall be competent, in all charters framed under the authority given by section 8 of this article, to provide, in addition to those provisions allowable by this constitution, and by the laws of the State as follows:

1. For the constitution, regulation, government, and jurisdiction of police courts, and for the manner in which, the times at which, and the terms for which the judges of such courts shall be elected or appointed, and for the qualifications and compensation of said judges and of their clerks and attaches; and for the establishment, constitution, regulation, government and jurisdiction of municipal courts and judges thereof, with such civil, criminal and magisterial jurisdiction as by law may be conferred upon inferior courts and judges thereof; and for the manner in which,

In any city or any city and county, when such municipal court has been established, there shall be no other court inferior to the superior court; and pending actions, trials, and all pending business of inferior courts within the territory of such city or city and county, upon the establishment of any such municipal court, shall be and become pending in such municipal court, and all records of such inferior court shall thereupon be and become the records of such municipal court.

2. For the manner in which, the times at which, and the terms for which the members of boards of education shall be elected or appointed, for their qualifications, compensation and removal, and for the number which shall constitute any one of such boards.

3. For the manner in which, the times at which and the terms for which the members of the boards of police commissioners shall be elected or appointed; and for the constitution, regulation, compensation, and government of such boards and of the municipal police force.

4. For the manner in which and the times at which any municipal election shall be held and the result thereof determined; for the manner in which, the times at which, and the terms for which the members of all boards of election shall be elected or appointed, and for the constitution, regulation, compensation and government of such boards, and of their clerks and attaches, and for all expenses incident to the holding of any election.

It shall be competent in any charter framed in accordance with the provisions of this section, or section 8 of this article, for any city or consolidated city and county, and plenary authority is hereby granted, subject only to the restrictions of this article, to provide therein or by amendment thereto, the manner in which, the method by which, the times at which, and the terms for which the several county and municipal officers and employees whose compensation is paid by such city or city and county, excepting judges of the superior court, shall be elected or appointed, and for their recall and removal, and for their compensation, and for the number of deputies, clerks and other employees that each shall have, and for the compensation, method of appointment, qualifications, tenure of office and removal of such deputies, clerks and other employees. All provisions of any charter of any such city or consolidated city and county, heretofore adopted, and amendments thereto, which are in accordance herewith, are hereby confirmed and declared valid.

It shall be competent in such charters to provide any mode for the nomination and/or election of the officers of such city or city and county, and to adopt and provide for any system of proportional representation on the legislative body thereof, also the manner of voting under such system.

5. It shall be competent in any charter or amendment thereof, which shall hereafter be framed under the authority given by section 8 of this article, by any city having a population in excess of fifty thousand ascertained as prescribed by said section 8, to provide for the separation of said city from the county of which it has theretofore been a part and the formation of said city into a consolidated city and county to be governed by such charter, and to have combined powers of a city and county, as provided in this constitution for consolidated city and county government, and further to prescribe in said charter the date for the beginning of the official existence of said consolidated city and county.

It shall also be competent for any such city, not having already consolidated as a city and county to hereafter frame, in the manner prescribed in section 8 of this article, a charter providing for a city and county government, in which charter there shall be prescribed territorial boundaries which may include contiguous territory not included in such city, which territory, however, must be included in the county within which such city is located.

If no additional territory is proposed to be added, then, upon the consent to the separation of any such city from the county in which it is located, being given by a majority of the qualified electors voting thereon in such county and upon the ratification of such charter by a majority of the qualified electors voting thereon in such city, and the approval thereof by the Legislature, as prescribed in section 8 of this article, said charter shall be deemed adopted and upon the date fixed therein said city shall be and become a consolidated city and county.

If additional territory which consists wholly of only one incorporated city or town, or which consists wholly of unincorporated territory, is proposed to be added, then, upon the consent to such separation of such territory and of the city initiating the consolidation proposal being given by a majority of the qualified electors voting thereon in the county in which the city proposing such separation is located, and upon the ratification of such charter by a majority of the qualified electors voting thereon in such city so proposing the separation, and also upon the approval of the proposal hereinafter set forth, by a majority of the qualified electors voting thereon in the whole of such additional territory, and the approval of said charter by the Legislature, as prescribed in section 8 of this article, said charter shall be deemed

Upon consent to the separation of such district and of the city initiating the consolidation proposal being given by a majority of the qualified electors voting thereon in the county in which the city proposing such separation is located, and upon the ratification of such charter by a majority of the qualified electors voting thereon in such city, and upon the approval of the proposal hereinbefore set forth by a majority of the qualified electors voting thereon in the whole of said district so proposed to be added, and upon the approval of said charter by the Legislature, as prescribed in section 8 of this article, said charter shall be deemed adopted, the said indebtedness referred to in said proposal shall be deemed to have been assumed, and upon the date fixed in said charter, such district and such city shall be and become one consolidated city and county.

6. It shall be competent for any consolidated city and county now existing, or which shall hereafter be organized, to annex territory contiguous to such consolidated city and county, unincorporated or otherwise, whether situated wholly in one county, or parts thereof be situate in different counties, said annexed territory to be an integral part of such city and county; *provided*, that such annexation of territory shall only include any part of the territory which was at the time of the original consolidation of the annexing city and county, within the county from which such annexing city and county was formed, together with territory which was concurrently, or has since such consolidation been joined in a county government with the area of the original county not included in such consolidated city and county.

If additional territory, which consists wholly of only one incorporated city, city and county or town, or which consists wholly of unincorporated territory, is proposed to be annexed to any consolidated city and county now existing or which shall hereafter be organized, then, upon the consent to any such annexation being given by a majority of the qualified electors voting thereon in any county or counties in which any such additional territory is located, and upon the approval of such

annexation proposal by a majority of the qualified electors voting thereon in such city and county, and also upon the approval of the proposal hereinafter set forth by a majority of the qualified electors voting thereon in the whole of such territory proposed to be annexed, the indebtedness hereinafter referred to shall be deemed to have been assumed, and at the time stated in such proposal, such additional territory and such city and county shall be and become one consolidated city and county, to be governed by the charter of the city and county proposing such annexation, and any subsequent amendment thereto.

The proposal to be submitted to the territory proposed to be annexed, shall be substantially in the following form and submitted as one indivisible question:

"Shall the territory (herein designate in general terms the territory to be annexed) consolidate with the city and county of (herein insert the name of the city and county initiating the annexation proposal) in a consolidated city and county government, said consolidation to take effect (herein insert date when such consolidation shall take effect) and shall the said annexed territory become subject to taxation, as an integral part of the city and county so formed, in accordance with the assessable valuation of property of said territory for the following indebtedness of said city and county of (herein insert name of the city and county) to wit: (herein insert in general terms, reference to any debts to be assumed and if none insert 'none')?"

If additional territory including unincorporated territory and one or more incorporated cities, cities and counties, or towns, or including more than one incorporated city, city and county, or town, is proposed to be annexed to any consolidated city and county now existing or which shall hereafter be organized, the consent of each such incorporated city, city and county, or town, shall be obtained by a majority vote of the qualified electors of any such incorporated city, city and county, or town, voting upon a proposal substantially as follows:

"Shall (herein insert name of the city, city and county, or town, to be included in such annexed territory) be included in a district to be hereafter defined by the city and county of (herein insert the name of the city and county initiating the annexation proposal) which district shall within two years from the date of this election vote upon a proposal submitted as one indivisible question, that such district to be then described and set forth shall consolidate with (herein insert name of the city and county initiating the annexation proposal) in a consolidated city and county government, and that such district become subject to taxation, along with the entire territory of the proposed city and county in accordance with the assessable valuation of the property of said district for the following indebtedness of said city and county of (herein insert name of the city and county initiating the annexation proposal) to wit: (herein insert in general terms, reference to any debts to be assumed and if none insert 'none')?"

Any and all incorporated cities, cities and counties, or towns, to which the foregoing proposal shall have been submitted, and a majority of whose qualified electors voting thereon shall have voted in favor thereof, together with such unincorporated territory as the city and county initiating such annexation proposal may desire to have included, the whole to form an area contiguous to said city and county, shall be created into a district by said city and county, and the proposal substantially in the form above set forth to be used when the territory proposed to be added consists wholly of only one incorporated city, city and county, or town, or wholly of unincorporated territory, shall, within said two years, be submitted to the voters of said entire district as one indivisible question.

Upon consent to any such annexation being given by a majority of the qualified electors voting thereon in any county or counties in which any such territory proposed to be annexed to said city and county is located, and upon the approval of any such annexation proposal by a majority of the qualified electors voting thereon in such city and county proposing such annexation, and also upon the approval of the proposal hereinbefore set forth by a majority of the qualified electors voting thereon in the whole of the district so proposed to be annexed, then, the said indebtedness referred to in said proposal shall be deemed to have been assumed, and upon the date stated in such annexation proposal such district and such city and county shall be and become one consolidated city and county, to be governed by the charter of the city and county proposing such annexation, and any subsequent amendment thereto.

Whenever any proposal is submitted to the electors of any county, territory, district, city, city and county, or town, as above provided, there shall be published, for at least five successive publications, in a newspaper of general circulation printed and published in any such county, territory, district, city, city and county, or town, the last publication to be not less than twenty days prior to any such election, a particular description of any territory or district to be separated, added, or annexed, together with a particular description of any debts to be assumed, as above referred to, unless such particular description is contained in the said proposal so submitted. In addition to said description, such territory shall also be designated in such notice by some appropriate name or other words of identification, by which such territory may be referred to and indicated upon the ballots to be

used at any election at which the question of annexation or consolidation of additional territory is submitted as herein provided. If there be no such newspaper so printed and published in any such county, territory, district, city, city and county, or town, then such publication may be made in any newspaper of general circulation printed and published in the nearest county, city, city and county, or town where there may be such a newspaper so printed and published.

If, by the adoption of any charter, or by annexation, any incorporated municipality becomes a portion of a city and county, its property, debts and liabilities of every description shall be and become the property, debts and liabilities of such city and county.

Every city and county which shall be formed, or the territory of which shall be enlarged as herein provided from territory taken from any county or counties, shall be liable for a just proportion of the debts and liabilities and be entitled to a just proportion of the property and assets of such county or counties, existing at the time such territory is so taken.

The provisions of this constitution applicable to cities, and cities and counties, and also those applicable to counties, so far as not inconsistent or prohibited to cities, or cities and counties, shall be applicable to such consolidated city and county government; and no provision of subdivision five or six of this section shall be construed as a restriction upon the plenary authority of any city or city and county having a freeholders' charter, as provided for in this constitution, to determine in said charter any and all matters elsewhere in this constitution authorized and not inconsistent herewith.

The Legislature shall provide for the formation of one or more counties from the portion or portions of a county or counties remaining after the formation of or annexation to a consolidated city and county, or for the transfer of such portion or portions of such original county or counties to adjoining counties. But such transfer to an adjoining county shall only be made after approval by a majority vote of the qualified electors voting thereon in such territory proposed to be so transferred.

The provisions of section 2 of this article, and also those provisions of section 3 of this article which refer to the passing of any county line within five miles of the exterior boundary of a city or town in which a county seat of any county proposed to be divided is situated, and to the reducing of the population of any county upon the establishment of a new county, and to the minimum population on the forming of a new county, shall not apply to the formation of, nor to the extension of the territory of such consolidated cities and counties, nor to the formation of new counties, nor to the annexation of existing counties, as herein specified.

Any city and county formed under this section shall have the right, if it so desires, to be designated by the official name of the city initiating the consolidation as it existed immediately prior to its adoption of a charter providing for a consolidated city and county government, except that such city and county shall be known under the style of a city and county.

It shall be competent in any charter framed for a consolidated city and county, or by amendment thereof, to provide for the establishment of a borough system of government for the whole or any part of the territory of said city and county, by which one or more districts may be created therein, which districts shall be known as boroughs and which shall exercise such municipal powers as may be granted thereto by such charter, and for the organization, regulation, government and jurisdiction of such boroughs; *provided*, that in the event of such establishment or creation of a borough or boroughs, as hereinabove permitted, the boundaries thereof shall never afterwards be changed or altered, nor shall the governmental rights, powers or jurisdiction of any such borough or boroughs be thereafter limited, extended, modified or taken away, unless and until the borough or boroughs affected by such proposed change or alteration of boundaries, or by the proposed limitation, extension, modification or taking away of governmental rights, powers or jurisdiction, as the case may be, shall each have consented thereto, by the vote of a majority of the voters in each and every such borough, voting at an election or elections called and held for such purpose in each of the boroughs so affected.

No property in any territory hereafter consolidated with or annexed to any city or city and county shall be taxed for the payment of any indebtedness of such city or city and county outstanding at the date of such consolidation or annexation and for the payment of which the property in such territory was not, prior to such consolidation or annexation, subject to such taxation, unless there shall have been submitted to the qualified electors of such territory the proposition regarding the assumption of indebtedness as hereinbefore set forth and the same shall have been approved by a majority of such electors voting thereon.

7. In all cases of annexation of unincorporated territory to an incorporated city, or the consolidation of two or more incorporated cities, assumption of existing bonded indebtedness by such unincorporated territory or by either of the cities so consolidating may be made by a majority vote of the qualified electors voting thereon in the territory or city which shall assume an existing bonded indebtedness. This provision shall apply whether annexation or consolidation is effected under this

section or any other section of this constitution, and the provisions of section 18 of this article shall not be a prohibition thereof.

The Legislature shall enact such general laws as may be necessary to carry out the provisions of this section and such general or special laws as may be necessary to carry out the provisions of subdivisions five and six of this section, including any such general or special act as may be necessary to permit a consolidated city and county to submit a new charter or charter amendment to take effect at the time that any consolidation, by reason of annexation to such consolidated city and county, takes effect, and, also, any such general law or special act as may be necessary to provide for any period after such consolidation, by reason of such annexation, takes effect, and prior to the adoption and approval of any such new charter or charter amendment.

AMENDMENT NUMBER TWO.

In line 14 of the title of the printed bill, strike out the period, and insert in lieu thereof a comma and the following: "relating to the deterioration, waste and reduction of fish and fishery products,".

AMENDMENT NUMBER THREE.

On page 1, line 1. of the printed bill, after the period, insert the following: "Section 5 of chapter 551, statutes of 1919, entitled "An act to conserve the fish supply in California by empowering the fish and game commission to regulate and control the handling of fish or other fishery products for the purpose of preventing deterioration or waste; to establish grades to which the fish or other fishery products offered for delivery to canners or preservers or to the fresh fish market must conform; to make regulations to insure the proper handling and delivery of fish or fishery products to canners, preservers or fresh fish dealers; to regulate and control the use of fish or other fishery products for reduction purposes, and to provide penalties for any violation of any of the provisions of this act," approved May 25, 1919, as amended, is hereby amended to read as follows:

SEC. 5. No person, firm or corporation shall suffer or cause any deterioration or waste of any fish caught or taken in the waters of this state, or brought into this state, and no person shall use any fish except fish offal in a reduction plant or by a reduction process; except of the species, in the manner and to the amount allowed by this act. No person, firm or corporation engaged in taking or catching fish shall take, catch or kill more fish than the boat or boats operated by said person, firm or corporation can handle without deterioration, waste or spoilage, and no person, firm or corporation shall accept or receive or agree to accept or receive more fish than the canning, packing or preserving plant or plants can handle without deterioration, waste or spoilage, and no person dealing in fish shall take, catch or kill, accept or agree to accept or receive more fish than can be handled without deterioration, waste or spoilage; *provided*, that in order to permit sardine canneries to operate efficiently and economically and at a constant rate of output approaching maximum capacity, and in order to allow such canning plants to discard broken and spoiled fish and fish of a size unsuitable for canning and unavoidable overcatches, it is hereby declared lawful for a canner of sardines actually engaged in canning sardines to take and use in a reduction plant in each calendar month sardines to the amount of twenty per cent of the amount of sardines actually received at such canning plant during each calendar month; *provided, further*, that in determining percentage of sardines used for reduction purposes by canneries it shall be deemed that a ton of sardines suitable for canning in size and condition will produce twenty cases of one pound oval cans of sardines (forty-eight cans to the case) or the equivalent, if other size cans are used.

It shall be lawful for the holders of permits therefor, as provided herein, to take and use sardines by reduction or extraction processes in the total amount or quantity not exceeding one hundred thousand tons during any one fiscal year, each ton containing two thousand pounds, wet weight, of sardines; each fiscal year after the first day of August, and not later than the tenth day of August, the fish and game commission shall allocate to and apportion among all qualified applicants therefor said amount of one hundred thousand tons of sardines for such use during the then current fiscal year. Said allocation and apportionment shall be upon an equal basis to all such qualified applicants. No greater quantity by weight of sardines shall be allocated to or for one plant than is allocated to or for any other plant for use during the then current fiscal year.

Every person engaged in the business of operating a cannery for the canning of sardines and who operates a reduction plant in conjunction therewith; also, any packer engaged in the business of preserving sardines by any one or more of the common methods of drying, salting, pickling or smoking and who likewise operates a reduction plant in connection therewith; and also any person, firm or corporation operating a plant exclusively as a reduction plant may apply to the fish and game commission for a permit or permits to use sardines by reduction or extraction processes, but each application for a permit during any fiscal year must be filed with the commission on or before August first of said fiscal year. The owner of two or more such plants is entitled to apply for and receive a permit for each thereof, but shall file a separate application for each permit desired.

Each application for such a permit shall contain a full description of the plant to be used and the equipment and process to be used, and shall also state the location of the plant, and the name and address of the owner and operator thereof.

No permit for the reduction of fish shall be issued to or for any plant, which is not in a condition to operate at the time of the filing of the application, nor shall any permit authorize or allow the use of sardines except in the plant specifically applied for and named in the permit, nor shall any permit be transferable to or for any other plant, nor shall more than one permit be issued to or for any one plant in any one fiscal year.

Within ten days from and after the final date for filing applications for permits hereunder, the fish and game commission shall pass upon the applications, filed

within the time limit herein specified, and shall thereupon, within the said ten days, grant and issue a permit to each applicant found to be qualified under the provisions of this act, but no permit shall be granted and/or issued to any applicant whose application was not filed on or before August first of the then current fiscal year.

Applications for such permits for and in respect to the fiscal year in which this act, as amended, takes effect shall be filed with the fish and game commission within ten days, and permits shall be issued within the next succeeding ten days, from and after the date upon which this amendment takes effect.

In order to provide for the efficient and economical operation of plants preserving sardines by the common methods of drying, salting, smoking, or pickling, it is hereby declared to be lawful for such plants to discard and use in a reduction plant or by reduction process such sardines as are unfit for drying, salting, smoking, or pickling, which are not deliberately taken into the plant in a condition unfit for processing.

Other fish, undesirable for canning, drying, salting, smoking, or pickling, may be used in a reduction process when the same are delivered at any canning, drying, salting, smoking, or pickling plant mixed with sardines or when received in a condition unfit for canning, drying, salting, smoking, or pickling; *provided*, that the same have not been deliberately taken into such plant in an unfit condition; *provided, further*, that any of such fish so used in a reduction plant by a canner of sardines shall be deemed the equivalent of sardines and included within the percentage of the total amount of sardines received by such canner during each calendar month herein allowed to be used by such canner of sardines in a reduction plant.

Bill ordered to print, and re-referred to Committee on Fish and Game.

SENATE CONCURRENT RESOLUTION No. 10.

Relative to the orderly addition of new roads to the State highway system, after engineering and economic studies by the California Highway Commission and the Department of Public Works.

WHEREAS, It appears that some highways not now in the State highway system are carrying a volume of State traffic that far exceeds the local traffic carried on said roads, thus placing upon the counties in which these roads are located an undue and heavy maintenance burden; and

WHEREAS, A preliminary investigation by the California Highway Commission and Department of Public Works indicates that there is at the present time a decidedly greater mileage of such roads in the south, as compared with those in the north, carrying this excessive State traffic; and

WHEREAS, An executive message was transmitted to the Legislature under date of March 12, 1929, in which was suggested certain underlying principles to be observed in the inclusion of new secondary roads within the State highway system; now, therefore, be it

Resolved by the Senate, the Assembly concurring. Resolved. That this study shall, in accordance with the above mentioned executive message, include an investigation into the engineering, economic and traffic facts involved in the matter; that a comprehensive report shall be made to the fiftieth Legislature embodying such recommendations as the investigation may disclose as proper and a recital of such facts as may have been taken into account; that this investigation shall begin not later than May 1, 1931, and that this report shall be completed and made public not later than August 1, 1932, and that pending the adoption of such report authority be hereby given to the California Highway Commission to take into consideration for its next budget such roads as it is thus designating and bringing to the attention of the Legislature at its next session.

Relative to memorializing the Federal Tariff Commission to impose a tariff on Chinese dried eggs.

WHEREAS, There was imported into the United States last year from China the equivalent of over 60,000,000 dozens of eggs, most of which found market in California; and

WHEREAS, That fact is resulting in irreparable injury to the great poultry industry of this State, a reduction of a quarter of a million tons in consumption of poultry feed, the product of nearly half a million acres of land, a loss of more than \$1,000,000 in freight to the carriers of California, and incalculable loss to labor in our State; and

WHEREAS, Said dried eggs are produced at a cost of 3 to 5 cents per dozen under conditions not up to our American sanitary or living standards, and therefore their sale in this country tends to reduce the standard of living of the American people; and

WHEREAS, This deplorable situation is made possible by the fact that said dried Chinese eggs pay a duty of less than 2½ cents per dozen; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly. That the Federal Tariff Commission impose upon said Chinese dried eggs such tariff as will adequately protect this great American industry and the labor dependent upon it: and be it further

CONSIDERATION OF ASSEMBLY BILL NUMBER ONE THOUSAND
NINE HUNDRED THIRTEEN.

Senator Fellom asked for, and was granted, unanimous consent for the consideration of Assembly Bill No. 1913, without reference to committee.

CASE OF URGENCY.

RESOLUTION.

The following resolution was offered:

By Senator Fellom:

Resolved, That Assembly Bill No. 1913 presents a case of urgency, as that term is used in section 15 of article IV of the constitution, and the provision of that section requiring that the bill shall be read on three several days in each house is hereby dispensed with, and it is ordered that said bill be read the first, second, and third times, and placed upon its passage.

Resolution read.

The question being on the adoption of the resolution.

The roll was called, and the resolution adopted by the following vote:

AYES—Senators Baker, Breed, Bush, Cassidy, Christian, Clock, Crittenden, Deuel, Duval, Edwards, Evans, Fellom, Hays, Ingels, Inman, Jones, Maloney, McCormack, McKinley, Mixer, Moran, Pedrotti, Rich, Riley, Schottky, Sharkey, Slater, Swing, Trency, Tubbs, Waggy, and Williams—32.

NOES—None.

Whereupon, the President declared the provisions of section 15 of article IV of the constitution suspended for the purpose of considering, at this time, Assembly Bill No. 1913.

SECOND READING OF ASSEMBLY BILL NUMBER ONE THOUSAND NINE
HUNDRED THIRTEEN.

Assembly Bill No. 1913—An act concerning the completion of unfinished public buildings now in process of construction by this State, permitting alterations of and additions to the original plans for the construction thereof, and permitting the execution of contracts for the construction thereof and for the purchase of materials for use therein without publishing notice of such work and without calling for or receiving bids therefor, declaring the urgency thereof and providing that this act shall take effect immediately.

Bill read second time, and ordered on file for third reading.

URGENCY CLAUSE.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of section 10, article IV of the constitution of California and shall take effect immediately.

The facts constituting such necessity are as follows:

The State originally drew plans for the construction of a State Building at Los Angeles. However, owing to a lack of sufficient funds, a portion of the building, known as wings, was temporarily omitted from the original plans and contracts were let for the construction of the main portion of the building, with the intention that subsequently and as soon as funds should become available therefor said wings would be added to the building. Subsequently, and heretofore, a sum in excess of \$600,000 has been appropriated for the construction and completion of the building, including said wings, in accordance with the original plans.

Inasmuch as the building is in course of construction, a saving of approximately \$200,000 to the State can be effected if the State can at once proceed with the completion of the entire building in accordance with the original plans, as is authorized by this act, a saving which can not be effected if such work of completion is delayed by following the procedure prescribed therefor by existing provisions of law or if this act does not take effect immediately.

Urgency clause read.

The question being on the adoption of the urgency clause.

The roll was called, and the urgency clause adopted by the following vote:

AYES—Senators Baker, Breed, Bush, Cassidy, Christian, Clock, Crittenden, Deuel, Duval, Edwards, Evans, Fellom, Hays, Ingels, Inman, Jones, Maloney, McCormack, McKinley, Mixer, Moran, Pedrotti, Rich, Riley, Schottky, Sharkey, Slater, Swing, Treacy, Waggy, and Williams—31.

URGENCY CLAUSE.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of article IV of the constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such urgency: many school districts within the State of California are without sufficient money with which to purchase school lots, for building or purchasing one or more school buildings or making alterations or additions to same or repairing, restoring or rebuilding school buildings damaged, injured or destroyed by fire or other public calamity, for insuring school buildings, for supplying school buildings with furniture or necessary apparatus, for improving school grounds, for liquidating any indebtedness already incurred for said purposes or refunding any valid outstanding indebtedness of such district evidenced by bonds or warrants thereof. Many school districts have voted bonds for raising money for such purposes and the proceedings in many

of such bond elections were irregular but complying with all the provisions of this act, and by reason of such irregularities and defects in such proceedings such bonds can not now be sold. The population of many of these districts has increased so rapidly that the present school facilities of such districts are unable to meet the needs of the great increase of pupils in such districts and it is necessary and urgent that such bonds and the proceedings thereunder be validated at an early date in order that said school buildings, lots, equipment and facilities may be purchased or built before the opening of the next school year which in many instances would be impossible if this act did not go into effect immediately but was required to await until ninety days after adjournment of this Legislature.
